

Product operation operation diagram:

Replacement cotton swab:

Pull out used cotton swab to replace the new cotton swab, pay attention to the bottom spring when replacing (Do not lose it)

Precautions:

- 1 Please add water before using mist spray. It is forbidden to use humidification function in case of water shortage. It is recommended to soak the whole cotton swab in water and then place it in. Be careful not to lose the bottom spring, it will affect the use of it.
- 2 If there is a water droplet on the atomizer, wipe the water droplets to avoid the abnormal use of spray mist mode.
- 3 When adding fragrance oils, please use moderate, approximately 12 drops. Do not add too much oil to avoid blocking the atomized.

aromar®

Premium Quality Spa Collection

Ultrasonic Diffuser

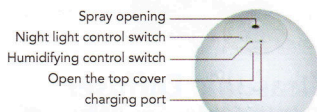

3 Color Light (Yellow, Grey, White)

Includes:

- 1-Moon Lamp Humidifier
- 1-Wood Bracket
- 1-USB Cable + Adapter
- 2-Cotton Swab
- 1-User Manual

Product Details:

Working voltage:DC5V
Working current:400MA
Power consumption:2w
Water Tank Capacity:800ML(Use for 30 hours)
Atomization amount:25-35ML/H
Product size:13CM
Product weight:240G
Product material:PVC+PP electronic original+silicone
Quality Inspection:Qualified Executive
Standard:GB4706.1-1-2005 GB4706.48-2009
Place of Origin:MADE IN CHINA

Wooden frame assembly icon:

Instructions:(Please turn on the power before use.)

Spray operation: Spray operation: connect the power supply, touch the spray switch metal head, open the continuous spray mode (the blue indicator lamp on the spray work is on), touch again, open the intermittent spray mode, (spray 3 seconds to stop 3 seconds), touch and turn off the spray work again (end the spray work, the blue indicator lamp goes out). Operate in this loop.

Night light operation: Touch the Nightlight control switch metal head, and adjust the light, each touch to change the color of the light, white-yellow-warm white-off, in turn cycle. At the same time, the length of the golden metal head can adjust the brightness of the lamp.

Anti-dry: Automatically power off after 10 hours of continuous spraying, and automatically power off after intermittent spraying for 20 hours. After power off, you can restart and continue to use.
